

Uninterruptible Power Supply 10-160kVA

Cold Start **High Input Power Factor** High efficiency up to 94% **External REPO switch input**
IGBT Transformerless Technology DSP Control.

Technical Specifications

- Low input current total harmonic distortion (THD)
- Static and maintenance bypass switch
- Output and by-pass short circuit and overload protection
- 192 events memory (192 events 4500 alarms)
- Clock and calendar (battery supported)
- Automatic battery test, remaining battery time indicator
- Temperature compensated charge system
- Regenerative backfeed function
- 2 RS232 serial port and 12 dry contact outputs
- 3 DSP controlled modular structure
- Optional Graphical and touch panel
- CE, ISO9001, ISO14001 certification
- 2 years warranty
- 10 years spare parts support

Pf: 0,9
True On-line
3:3 Phase UPS
10-160 kVA

Specifications

Power(kVA)	10	15	20	30	40	60	80	100	120	160
INPUT										
Power factor						> 0.98				
Voltage				380-400 VAC 3F, 4N+Earth, +/-%20 (240/415 VAC + %15 -%25 optional)						
Input THD						< 5%				
Input frequency					50Hz / 60Hz +/- 5% selectable					
Input frequency protection					2 levels protection (minimum and maximum)					
Regenerative backfeed						Standard				
Input power limiting						Standard				
EMI						EN62040-2				
Input voltage protection						2 levels protection				
Power walk in						Standard Adjustable				
Startup delay						Standard Adjustable				
Control system					seperate DSP controller for PFC rectifier module					
Rectifier input fuses						Standard				
Rectifier input switch						Standard				
Rectifier input CB						Standard				
OUTPUT										
Power (kW)	9	13,5	18	27	36	54	72	90	108	144
Power factor						0,9				
Voltage				380-400 VAC 3F, 4N+Earth, +/-1%(240/415 optional)						
Frequency					50Hz / 60Hz selectable					
Frequency tolerant					+/- 2% (synchron) +/- 0,2% (free running)					
Frequency stability (free running)					0,005%					
Efficiency					up to 94%					
Crest factor					3:1					
Overload protection			100% - 125% load: 10 min.	125% - 150% load: 1 min..> 150% load: by-pass						
Output current limiting					Standard					
Short circuit protection				Direct IGBT saturation protection and advanced short circuit protection						
Output voltage protection					2 levels electronic protection					
THD (%100 linear load)					< 3%					
Control system					seperate DSP controller for Inverter module					
BATTERY										
Type				Maintenance free ,sealed lead acid						
Batteries				2X30=60 batteries						
Charge voltage				2x405 Vdc						
Discharge end voltage				2x300 Vdc						
Battery cabinet			Internal			External				
Ambient temperature					25 °C					
Battery protection				Fuses ,charging current limiting						
Battery voltage protection				electronic 3 level alarms						
Battery test system				automatic every 72 hours						
Temperature compansiation					Standard					
Battery remaining time indicator					Standard					
Battery fuses					Standard					
Deep discharge protection					Standard					
FRONT PANEL										
Front panel control				Separate DSP controller for panel and communication functions						
Human interface				Alphanumeric LCD panel, mimic lamps and control buttons standard						
Alarm log memory				192 events (4500 alarms)						
Communication				Dry contact and 2 RS232 serial ports						
Phase to phase measurements				Rectifier input ,By-pass input ,Inverter output and UPS output voltages						
Phase to neutral measurements				Rectifier input ,By-pass input ,Inverter output and UPS output voltages						
Power measurements				Output Watts ,output VA ,Load crest factor ,output power factor ,load percentage						
Current measurements				Rectifier input currents ,battery charge and discharge currents ,output load currents						
Frequency measurements				Rectifier input frequency ,by-pass input frequency ,output frequency						
Temperature measurements				Cabinet inside ,battery ambient temperature and optional sensors						
Maintenance indicators				Separate Operating ,General ,battery ,Fan maintenance and optional hourmeters and warnings						
Overtemperature protection				2 electronic temperature sensors and thermal contacts						
Failure memory				Standard (records all measured parametres during failures)						
Factory settings memory				Standard (settings backup memory)						
Module communication				CAN interface						
Free software				T-Mon UPS Software (3 clients)						
Operating temperature				0 C - 40° C						
Protection				IP20						
Humidity (non condensed)				90% max						
Operating height				< 1000 m below sea level						
Noise level				<50 dBA						
Calibration over RS232				Available (Device calibrator software)						
Log download over RS232				Available (DLOG software)						
Weight (kgs) (without batteries)	87	87	91	100	173	197	209	220	232	265
Dimensions (HxWxD)			1040x400x810				1440x515x850
